

Location: Millennium Park

Task # 33

Date: 12 Dec 19

Review Date: May 20

Map:

What a wet and miserable day it was! So very many thanks to all of you that turned up and we eventually found each other! Those of us that got there early went around to the back of the cricket pitch to clear the footpaths there. It was a bit of a quagmire but we just about survived it in time to meet the rest of the group at Millennium.

With most of the leaves off the trees it was a good time to get them off the paths so they don't turn into mud and make the paths extra slippery over winter. Some work had been done the week before, mainly cutting back overhanging branches, but there was still plenty to do. The photos don't really show the difference we made.

Before

After

Before

After

On the way back, a couple of us decided it was as good a time as any to tackle the build-up of leaves at the bottom of Brook Lane and the footpath leading to Nursery Grove. After a few minutes it was easy to see the difference we made, but the rain started to come down in bucket loads and we didn't half get wet! Time to go home and get dry, but a great effort from everyone.

Thank you to all of you that got so soggy today.
