

Barrow Community Litter Pickers

Date:	Monday 11 th March 24
Location:	Barrow Deep Lock – towpath, hedgerow and ditch

4 volunteers out on this damp morning. We cleared the towpath around Deep Lock and the hedges and ditches beyond which back onto Proctors Park.

These areas were badly hit with flooding a few times this year so lots to clear away. We have made a start but more to be done. The team met Jo who is currently staying on Proctors and doing lots of litter picking herself around the areas we were in, so great to meet her today.

We cleared about 15 bags of general grot plus tires, lots of collapsed metal framework, wood, lots of batteries too. Lots of the metal frames and wood was left at Proctors, with the remaining flood rubbish to be removed by Canal and River Trust.

Thanks to the team today, Karen, Bob, Steve & Trev
