

Barrow In Bloom 2022

Monday 25th July 2022 6pm

Community Event - Planting in King George V Park

A fantastic turn out tonight to plant our donated plants in the sensory gardens at King George V Park. We hoped the volunteers would be able to fill one area with the donated plants, but we managed to pretty much fill all 3 areas up due mainly to the enthusiasm of our 14 volunteers.

We had much needed refreshments too, the ground was as hard as concrete in places so the cake and coffee really kept us going.

Thanks for everyone that donated plants for the area, especially members of the Gardening Club and Barrow Open Gardens. We are now able to water our new planting thanks to Eaton Electrical who are supplying all our water.

So many plants - but we managed to plant them all

Working out where they can all go

Everyone mucking in!

Always time for a laugh

The ground needed a good watering

Hard work - but fun

Just the last few - where can they go

Much needed refreshments

This event is supported by Eaton Electrical who are donating all water supplies to the gardens throughout the year which has allowed new plants to be introduced

Thanks to Barrow Open Gardens, Barrow Gardening Club and the organisers of the Village Show for all of your plants donations
