

Barrow upon Soar Station Adoption Group

Sunday 20th August - Sleeper Installation

Volunteers worked all day today at Barrow Railway Station installing sleepers along the length of Platform one.

We could not have completed the enormous amount of work today without the fantastic efforts of all volunteers involved in different shifts during the day.

Thanks to Alexa from East Midlands Railways for providing our safety cover, and also Julie from CBC for providing safety barriers.

Thanks to Honor and Alison for supplying cakes all day. Thanks to Barrow Community Library for loan of the thermos flasks.

Funding for this project has been received from East Midlands Railways and Community Rail Network.

Over the course of the next few weeks we will be back filling the recess with soil to begin our planting program which will provide a wonderful display of colour throughout the year.

Our volunteers today: David, Dylan, Nick, Ian, Steve, Stewart, Jane, Linda, Anna, Julie, Karen, Andrew, and Annette

Date of next task: Sunday 27th August From 09:00
